

# COMMUNITY MEETING

## Verizon Wireless' Proposed CO3 DT Edwards Facility

✓ BETTER CAPACITY

✓ ROBUST LTE SIGNAL

*Verizon Wireless is working with the Eagle County School District to obtain approval of a facility located at 151 Miller Ranch Road that will improve service in your neighborhood within the City of Edwards.*

**Verizon is hosting a community meeting on April 30th, 2018 @ 5:30 p.m. at 151 Miller Ranch Road (**Battle Mountain High School, Lecture Hall**), Edwards, to provide information about the proposed wireless facility in this area, and seek community input on design options. Verizon encourages all community members to attend.**

*Verizon's proposal will involve:*

- *Installation of 12 antennas within a concealed structure either on the roof of the high school or within a freestanding clock-type tower.*
- *The stealth installation will conceal all antennas and ancillary equipment from public view.*
- *Any ground equipment enclosure will effectively conceal radio cabinets and ground equipment*

***For those unable to attend, your input is still encouraged prior to the May 9<sup>th</sup> School Board Meeting. Please email your preference (rooftop vs. tower) to [turks@bv.com](mailto:turks@bv.com)***
