## Gym Etiquette Reminders

- Put your weights back.** This should go without saying but it's the number one rule broken in the gym. For extra points, if you found a weight somewhere it shouldn't have been, put it back.
- Keep the equipment where it belongs.** Have you ever walked into the weights area of a gym only to see a sit-up bench blocking the dumbbells? That's a big no no.
- Be mindful of your surroundings.** On busy times of day in particular, you have to be mindful of the other patrons; don't start doing dumbbell kickbacks without checking behind you, for example.
- Clean up after yourself (and, if you have to, other patrons).** If you manage to sweat through your towel or for some other reason leave sweat on a piece of equipment, grab a gym wipe to do your fellow gym-goers a solid.
- Please keep phone conversations in the lobby.** No, everyone doesn't want to hear your conversation. If you do need to make or receive an important call, please step out for a moment.
- Personal space: respect it.** Can't get to a bench on Monday night? Too bad. Don't stand 10 inches away from the person who has one, ready to pounce.
- Don't hog the equipment.** Everybody needs to squat — don't monopolize the rack if it's 6:00pm on a Thursday night.

# Fitness Class Descriptions

**20/20/20** - An invigorating, fast paced fitness class that challenges your endurance. You will utilize various forms of fitness equipment totaling 20 minutes of intervals, 20 minutes of weights, and 20 minutes of core.

**ABSolutely Pilates** - Improve core strength and stabilization as you move through this fluid series of floor work exercises designed to strengthen your entire body, improve posture and increase flexibility. Cultivate mindfulness in your movement as precision and flow is emphasized.

**GENTLE YOGA**—Gentle yoga is a class designed for the practitioner who is newer to yoga, recovering from an injury, or is looking for modifications to all postures. Our instructor creates a safe environment through alignment to explore your personal boundaries while building strength and flexibility. This practice excludes all inversions and extreme backbends.

**GET LIFTED** — Get Lifted is a new fitness class that will use a combination of plyometric exercises and lifting weights, keeping the heart rate up for an all around fat burning work out!

**LIFT THE BARRE** — This fast-paced and fun class provides a complete body workout and incorporates strengthening and toning of muscles, sustained cardio and intervals, barre work, and finishes with core work and stretching for a well-balanced total body workout!

**MORNING FLOW YOGA** — Start your week with a morning wake up class! A flow that gives you time to center yourself on your mat and work into fun, playful movement sequences synced with breath. Many variations available depending on how your morning is going.

**PILATES MAT CLASS** - An exercise system focused on increasing flexibility and strength for the total body without building bulk. No apparatus is used during this class.

**POWER YOGA** – This powerful, energetic, playful flowing class has a strong emphasis on breath and allows beginners, intermediate and advanced students to be challenged in the same class. Expect to sweat and challenge yourself with movement and powerful, athletic postures, inventive and thoughtful sequences of sun salutations, standing and seated postures, back bending, and inversions guided by a steady breath to tone and calm the mind. Power Yoga flow will tone, strengthen and rinse your body, clear your mind and leave you with a sense of accomplishment and empowerment.

**SPIN** - A cardio workout without comparison. All instructors incorporate climbing, intervals and steady state training. Guaranteed to make you sweat! Each instructor creates a different design for each class.

**S.I.T.**— “**Strength and Interval Training.**” Another high energy conditioning class utilizing the step, bo-su, weights and intervals to keep your heart pumping!

**STRENGTH & CONDITIONING** - This class incorporates free weights, kettlebells, medicine balls, and body weight exercises. This class blends movements that recruit multiple muscle groups with circuit training for a full body burn.

**VINYASA FLOW YOGA**— In this yoga class the teacher will encourage you to synchronize your breath to the movement from one pose to the next on an inhale or an exhale. This style of yoga allows for a lot of variety, but you can expect movement, not just stretching.

**STRETCH/RESTORATIVE YOGA** — In a calm meditative atmosphere a half hour is spent stretching with your breath. The remaining time of class is given to guided meditation while exploring the range of motion of your spine supported by bolsters in gentle poses.
