ABSolutely Pilates - Improve core strength and stabilization as you move through this fluid series of floor work exercises designed to strengthen your entire body, improve posture and increase flexibility. Cultivate mindfulness in your movement as precision and flow is emphasized.

GENTLE YOGA — Gentle yoga is a class designed for the practitioner who is newer to yoga, recovering from an injury, or looking for modifications to all postures. Our instructor creates a safe environment through alignment to explore your personal boundaries while building strength & flexibility. This practice excludes all inversions & extreme backbends.

GET LIFTED — Get Lifted is a unique fitness class that will use a combination of plyometric exercises and lifting weights, keeping the heart rate up for an all around fat burning work out!

POWER YOGA – This powerful, energetic, playful flowing class has a strong emphasis on breath and allows beginners, intermediate and advanced students to be challenged in the same class. Expect to sweat and challenge yourself with movement and powerful, athletic postures, inventive and thoughtful sequences of sun salutations, standing and seated postures, back bending, and inversions guided by a steady breath to tone and calm the mind. Power Yoga flow will tone, strengthen and rinse your body, clear your mind and leave you with a sense of accomplishment and empowerment.

PRIMAL POWER — What if you could optimize for 30% more longevity, significantly boost your athletic performance, release your emotions, prevent brain deterioration, play like a child, and practice mobility like a jungle cat in one workout a week? Complimenting Super Slow Resistance Training, this session is sure to keep your bones strong, increase your power output (essential for practically every sport), and enjoy mobility like you haven't had since you were a kid. Expect to play, learn, & grow with this judgement-free session involving calisthenics, plyometrics, dance moves, and more. Bulletproof the body, let your emotions flow, and optimize brain performance through movement with Noah.

S.I.T. – “Strength and Interval Training” Another high energy conditioning class utilizing the step, bosu, weights and intervals to keep your heart pumping!

SS STRENGTH & MOBILITY — Join Noah for Scientific Super Slow Resistance to build a great physique, balance the musculoskeletal system, and enjoy significant strength gains without the wear and tear on joints. Rediscover mobility while optimizing your body for longevity with foam-rolling and stretching towards the end of the class. This session is great for all ages and ability levels because there is very little risk of injury and one starts with whatever level of resistance and range of motion manageable. Watch yourself progress from week to week and stay excited!
